

Fixture Installation Trial Program

At Halco Lighting Technologies®, we measure our success by one standard – your satisfaction. As part of this commitment, Halco is offering you a no obligation opportunity to test our LED fixtures with the **FIT** (Fixture Installation Trial) program. Halco's **FIT** program is a trial purchase of up-to eight LED fixtures for 60 days.

Halco ProLED® fixtures are energy-saving alternatives to recessed Fluorescent fixtures. Seeing fixtures installed in the actual application gives you the opportunity to review performance, measure energy cost and approve their appearance. Halco's **FIT** program includes LED Panel Lights and Downlight Retrofits.

See if LED Fixtures are a **FIT**

- 1 Send the FIT registration form with your order for up-to eight fixtures
- 2 Install the fixture in the application for up-to 60 days without payment
- 3 Keep the fixtures or request an RGA to return

To get started with your **FIT** program today, complete the **FIT** registration form and send to Halco with your purchase order. Halco will ship your fixtures freight

prepaid and invoice you with net 60 day terms. At any time up-to the 60 day limit, you may return the fixtures with an RGA from your customer service representative. Halco will not charge you re-stocking charges for **FIT** program fixture samples; however, fixtures must be returned at your expense in their original packaging in resaleable condition.

With Halco's **FIT** program, you can see the performance of Halco ProLED fixtures in your application before making any commitment. Complete the **FIT** registration form and fax with your purchase order to 800-880-0822. For more information about ProLED fixtures, please call 800-677-3334 or contact your Halco sales representative.

Contact your Halco sales representative now to learn more about this great trial opportunity!

Fixture Installation Trial Program

FIT Registration Form

Take advantage of Halco's **FIT** program with a trial installation for up-to 60 days for as many as eight LED fixtures! Complete the **FIT** registration form and fax with your purchase order to 800-880-0822. For more information on ProLED® fixtures, please call 800-677-3334 or contact your Halco sales representative.
