

**FOR IMMEDIATE RELEASE**

### **Halco Lighting Technologies® Announces Downlight Retrofit Replaceable Trim Series**

**Norcross, GA. (October 5, 2015)** – Halco Lighting Technologies introduces their ProLED Downlight Retrofit Replaceable Trim Series. This new product line combines the energy efficiency of LED lighting along with modern and stylish trim options to help complement any décor.

“These new LED Downlight Retrofits, along with the Easy Twist Technology™ Replaceable Trims, will allow homeowners and builders the ability to customize their homes while saving tremendously on energy bills,” said David Nelkin, Vice President, Product and Supply Chain Operations at Halco Lighting.

This new line of downlights is designed to upgrade any current 4”, 5”, or 6” downlight luminaire. The 4” series comes equipped with friction clips that allow universal installation into 4” housings. The 5”-6” series includes mounting hardware that adjusts to 5” and 6” cans, ensuring the trim fits snugly in the housing and to the ceiling surface.

Both the 4” series and the 5”-6” series are 120 volts, 90 CRI, and feature four color temperatures, including 2700K, 3000K, 4000K and 5000K. The 4” series are 600 lumens with a nine watt LED that replaces a 50 watt equivalent R20 lamp. The 5”-6” series are 800 lumens with a 12 watt LED that replaces a 65 watt equivalent BR30 lamp.

One of the unique features of the Halco Downlight Retrofit Replaceable Trim Series is the trims are easily replaceable with its Easy Twist Technology. The 4” and 5”-6” series each feature six trim options including: white trim with white baffle, white trim with black baffle, white trim with specular silver reflector, brushed nickel baffle, oil rubbed bronze baffle, and black trim with black baffle.

Halco's new Downlight Retrofit Replaceable Trim Series are Energy Star® certified products and Title 24 compliant. Each product is dimmable, has a 50,000 hour rated life, and includes a 5-year limited warranty.
