

FOR IMMEDIATE RELEASE

Halco Lighting Technologies® Appoints Three New Agencies

Norcross, GA. (April 8, 2016) – Halco Lighting Technologies, a leading manufacturer lighting solutions including energy efficient LED lamps, luminaires and ballasts, is pleased to announce the appointment of three new sales agencies effective April 8, 2016. Electrical Materials Incorporated (EMI) will provide sales coverage for Michigan. McGee Company will cover the Southern California area and Robert Amey will provide coverage for parts of the Northwest region.

“Halco Lighting has always relied on strong sales representation to provide great product and technical support directly to our customers,” stated Ed Weaver, vice president of sales for Halco. “We’re confident these three companies will continue that tradition of delivering great products through great service and support.”

About Electrical Materials Incorporated

Located in Sterling Heights, MI, EMI was founded in 1969. The organization has grown to be one of the largest and most productive agencies in the Midwest. Their sales philosophy is to impact the electrical, A/V and lighting industries with long term workable plans for profit and market penetration that ensures maximum visibility for manufacturers and prospects.

About McGee Company

Located in Santa Fe, California, McGee Company was started in 1963 when Jack McGee bought an existing agency (Paine and Sloan) for \$2700 plus a used washer and dryer. His original lines were Carol Cable, Federal Signal, Rattan Fittings, and Tele-Jac. McGee Company is an organization of many mergers, with each one bringing unique talents and vertical market share to their product mix. McGee Company's committed to service the distributors and contractors in the Los Angeles area.

About Robert Amey

The Robert A. Amey Company is a Sales and Marketing Organization established January 1, 1967. The company currently employees 18 people and provides coverage for the states of Alaska, Idaho, Oregon and Washington from its offices in Anchorage, Billings, Boise, Eastern & Western Washington, and Portland.
