March 2010

ProLED[®] 40,000 Hour Dimmable PAR38!

Introducing **ProLED[®]** PAR38!
These 18-watt lamps save 80% more energy and are a **true** lumen equivalent, 90-watt halogen PAR38 replacement. These PAR38 floods are dimmable, consist of 16 high power LED chips and produce up-to 1240 lumens. ProLED lamps utilize high quality Japanese chips and European manufactured optics to ensure overall performance and are backed with a 5-year warranty. ProLED PAR38s are available in natural white and warm white.

Available in:

PAR38/18NW/FL/LED
PAR38/18WW/FL/LED

Halco
LIGHTING TECHNOLOGIES[®]

where there's **light**, there's **halco**

- Compatible with most analog dimming systems.
